Aircraft Covering

Pull-pull system for the rudder and elevator

Elevator bellcrank set to eliminate any differential throws for the elevators.

You don't need a big truck to haul this big plane around. With a detachable 2-piece wing and detachable stabilizer, a small car will do this job.

Landing path is so predictable that you will feel like an expert greasing your plane in every time you land.

Detachable 2-piece main wing

- Top quality balsa and plywood construction
- With super low flying weight
- Almost get unlimited vertical with a good 90 size 4 stroke glow engine
- Premium hand iron-on covering
- Comes with pre-painted fiber glass cowling and painted pilot
- Comes with all hardware and accessories
